PROFESSIONAL SUMMARY

Systems thinking engineer with a focus on **building digital products** from concept to launch. I work across defining user experiences, designing interfaces, and building the applications behind them. My approach is practical: **understand the problem, simplify it, and ship something that works.**

PROFESSIONAL EXPERIENCE

Product Design Engineer (Remote, USA), *Stalwart Crest - Tech company developing secure digital products* 05/2026 – 09/2026 Delaware, United States.

- Designed user flows, wireframes, and high-fidelity interfaces for **Etch**, a digital platform for creating and sharing secure, tamper-evident records.
- Worked closely with the engineering team to translate product requirements into clear, user-friendly designs and support implementation.

Product Designer (Contract, Nigeria), *Sierra Africa* 01/2026 – 08/2026 Nigeria

- Designed **user flows**, wireframes, and high-fidelity interface screens across the product, converting requirements into usable designs and improving task completion rates by 20%.

IT Support Specialist, *CWG plc (Computer Warehouse Group) - Hybrid* 01/2025 – 06/2025 Lekki Phase 1, Nigeria

- Provided technical support across user and client systems, handling **setup, troubleshooting, and issue resolution** at mostly first-contact resolution.
- Documented recurring issues into a reference knowledge base, **reducing repeat ticket volume by 25%** and supporting day-to-day operations.

EDUCATION

B.Sc. Computer Science (First Class Honours) - CGPA: 4.55/5.00, *Babcock University* 10/2022 – 06/2026 Ilishan-Remo, Ogun State, Nigeria

Final Year Research Project: *Sentiment Analysis System for the Nigerian Pidgin Language*

Designed and developed a **machine-learning-based** sentiment analysis system focused on Nigerian Pidgin language data.

TECHNICAL SKILLS

Product Design
Figma, Wireframing, Prototyping, UX Research, Interaction Design

Development
JavaScript, Python, HTML/CSS

Tools
Git/GitHub, VS Code

GLOBAL INNOVATION & PROFESSIONAL EXPERIENCE

Global Innovation & Cultural Immersion Program (GICIP 2026), 08/2026 – 09/2026
Academic & Career Enhancement Program, Europe.

Participant in a **six-week** international innovation, technology and cultural immersion spanning **Germany (Frankfurt, Munich, Berlin), Austria (Salzburg, Vienna) , Italy (Rome), Vatican City, France (Paris) and the Netherlands (Amsterdam)**.

- Engaged with global technology and innovation ecosystems through industry visits to AWS, Oracle, SAP, Wolt and TUM Venture Labs, gaining exposure to cloud, AI, enterprise technology and product innovation.
